## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims 6, 7, 9-13, 27-30, 33 and 34 drawn to an invention nonelected with traverse in the reply filed on March 28, 2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

### ***Claim Rejections - 35 USC § 102/103***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-5, 8, 14-26, 31, 32 and 35 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over EP 1266648 as per reasons of record.

### ***Response to Arguments***

5. Applicant's arguments filed February 21, 2007 have been fully considered but are not found persuasive.

The EP '648 reference discloses a cosmetic composition comprising a liquid lipid phase containing silicone oil, corresponding to presently claimed component (ii), wherein said composition is structured by a combination of polymeric gelling agent having polyorganosiloxane groups, corresponding to presently claimed component (i), solid particles, embracing powders of crosslinked hydrophobic polymers or copolymers (e.g., powder of silicone elastomer polymethylsilsesquioxane) and an amphoteric siloxane.

It is maintained that the mixing of the silicone elastomer powder and amphoteric siloxane would give rise to a silicone surface coated silicone elastomer powder, reading on the presently claimed component (iii). It is not seen if or how said silicone elastomer powder having a silicone coating thereon would distinguish from the presently claimed "silicone elastomer particles comprising a silicone rubber core bonded to a silicone resin coating". In this regard, it is maintained that the silicone elastomer powder of the reference would read on applicant's "silicone rubber core" and the silicone surface coating of the reference would read on applicant's "silicone resin coating". Applicants have not established that the product of the present claims is not the same as or obvious from that set forth by the reference.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

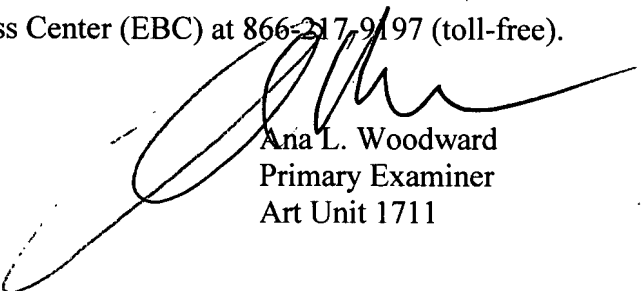

Art Unit: 1711

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
